-----

During the tour, His Highness was updated on the stages of the 60-megawatt SANA solar power plant project. This facility can produce clean energy that would be enough to power about ...

Sharjah National Oil Corp. (SNOC) has commissioned the first utility-scale solar plant in Sharjah, an emirate in the United Arab Emirates. The 60 MWp facility will supply electricity to the...

Sungrow is proud to supply inverters for the 60MWp solar PV plant being developed by Emerge, a joint venture between Masdar and EDF, to construct a 60MWp solar PV plant for Sharjah ...

The Emirate of Sharjah oil and gas industry leader, Sharjah National Oil Corporation (SNOC), and Emerge Limited, a joint venture between Masdar and the EDF Group, celebrated a ...

The Sharjah Solar Plant--with its 60 MW capacity--is not only the largest solar installation in the emirate but is also setting a new standard for renewable energy projects in the UAE.

The project will include the construction of a 60MW (AC side) floating solar power plant, a 150kV booster station, an 8.5km 150kV double-circuit transmission line on the same tower, and a ...

This project, has been awarded to Al Mustakbal Clean Tech as the EPC contractor, and the plant is set to become Sharjah's largest solar power plant.

The solar power project, situated at the Sajaa Gas Complex, is designed to harness solar energy to power the complex's operations, contributing actively to SNOC's goal of achieving Net-Zero...

Supported by the United Nations Development Programme (UNDP), the 60 MW solar facility will provide clean, renewable electricity to over 65,000 households and businesses -- offering ...

The Emirate of Sharjah oil and gas industry leader, Sharjah National Oil Corporation (SNOC), and Emerge Limited, a joint venture between Masdar and the EDF Group, celebrated a significant milestone today with the ...

Sharjah has taken a major leap toward clean energy with the launch of its first utility-scale solar power plant.

During the tour, His Highness was updated on the stages of the 60-megawatt SANA solar power plant project. This facility can produce clean energy that would be enough to power about 13,780 homes each year.
