The word amount is used in the singular to convey a single quantity: noun 1.0 A quantity of something, especially the total of a thing or things in number, size, value, or extent: ...

In addition to "amount" changing the sense, I think you'd preferably use "amounts" rather than "amount" -- specifically because they are two differently measured amounts, and a ...

Grammar Amount of or number of? We use amount of with uncountable nouns. Number of is used with countable nouns: We use a huge amount of paper in the office every day. The amount of ...

You were taught correctly. "Amount" is the total of anything, "number" is a symbol or word indicating how many, and "quantity" is the amount or number of things; ability to be ...

I believe that amount should only be used for uncountable things, like "pudding"; number and count should only be used for countable things, like "baby aardvarks"; quantity can be used for ...

When we want only a certain amount charged on the card (say you know you're near your limit and fear going over, or you're splitting the tab unevenly) you say, Please charge this amount ...

I need a small amount of milk in this recipe (generally implies a single dose). Same application for Ireland's small amount (viewed as a total amount). I need to add small amounts ...

A Wikipedia article tells us that: A problem is regarded as inherently difficult if solving the problem requires a large amount of resources, whatever the algorithm used for solving it. What is a...

What is the main difference between "amounts for" and "amounts to"? As much as I
