Do I need a battery enclosure for my off-grid system?

If you're using batteries with your off-grid system, you will need to protect them from the elements and separated from living areas. Often that means a dedicated enclosure. We supply various sizes of enclosures for holding batteries and associated electronics.

How many batteries does a battery enclosure take?

Create battery- powered,hand-held devices such as card and signal readers-- these enclosures have a clear cover for checking screens and status lights inside. They take one 9V battery(not included). The battery slots in without opening the entire enclosure,which is convenient for devices that run through batteries quickly.

How do you protect a battery?

Protect batteries from dirt, debris, and water. Ht. Wd. Dp. Ht. Wd. Dp. Holders have snap-on or screw-on covers to fully enclose and protect batteries. Use IP65-rated holders in applications where water and dust may be present.
