---

Bulgaria's largest commissioned system to date is a 25MW/55MWh installation by Renalfa (June 2024), followed by an 18.7MWh project from China-based Sermatec. In ...

In 2023, for the first time, Bulgaria joined the group of European countries that installed more than 1 GW of new capacity in a single year. Several large-scale solar ...

Described by the Ministry of Energy as the largest operational battery storage facility in the European Union by total energy capacity, the installation underscores Bulgaria's ...

The Bulgarian city of Lovech, northeast of Sofia, hosts the strongest battery energy storage system (BESS) in the Balkans. The Ministry of Energy even said the new ...

Only about 1.8 GW of battery energy storage system (BESS) capacity is likely to be operational in Bulgaria by 2026, rising to around 3 GW by 2030, according to UK power ...

Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability.

The tender was launched last year, aiming to significantly increase the share of renewable energy, mainly wind and solar, in the country's energy mix. It would also contribute ...

The RESTORE tender is funded under Bulgaria's National Recovery and Resilience Plan (NRRP), which aims to significantly increase the share of energy from ...

They will strengthen the energy system, support environmentally sustainable development, and increase the country's economic competitiveness. EUR117 million, invested in ...

Sigenergy has deployed a 10 MW/20 MWh battery energy storage system (BESS) at a solar site in Malko Tarnovo, Bulgaria, using 240 kWh battery stacks typically found in ...
