---

NYSERDA has advanced Step One Eligibility Applications submitted from over 150 unique energy storage projects, comprising over 18 gigawatts (GW) of proposed energy storage power capacity.

New York State continues to advance its bulk energy storage deployment efforts, and a final Bulk Storage Implementation Plan is now ...

A 150kW hybrid inverter system paired with appropriately sized battery storage and solar PV is an ideal solution for a vast range of small to medium-sized commercial ...

As a result, energy storage negotiations will involve the consideration of new terminology (charging capacity, charging duration, storage capacity) and new issues (how ...

The PSC's prior 2024 Order Establishing Updated Energy Storage Goals and Deployment Policy 4 required NYSERDA to issue its first competitive solicitation for bulk ...

A 150kW hybrid inverter system paired with appropriately sized battery storage and solar PV is an ideal solution for a vast range of ...

New York State continues to advance its bulk energy storage deployment efforts, and a final Bulk Storage Implementation Plan is now likely to be made public before the end of ...

Our Solar Battery Container delivers eco-friendly, reliable energy for utility needs. Experience 24/7 power and reduced costs with innovative large scale solar battery storage systems.
