Habitat Energy has been selected by Eku Energy, the UK battery platform of Macquarie's Green Investment Group, to optimize a 250-MW/500-MWh battery energy storage ...

A self-contained, transportable hybrid generator available for rent, delivering 24/7 off-grid power with integrated solar, battery storage, and backup generation.

The large-scale 250 megawatts (MW) battery will store enough renewable energy to power one-third of the city of Canberra for two hours during peak demand, helping to ...

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed across Canberra to optimize ...

Whether you're powering a remote agricultural site, supporting early-stage infrastructure, or replacing diesel on a mining project, our container delivers solar power -- all in one rugged, ...

A community-scale battery storage system with a 2500 kWh capacity designed for a resort in NSW to capture and store solar energy for peak-time use and grid support.

Over the next year, three new community-scale battery energy storage systems (BESS) will be deployed across Canberra to optimize solar energy usage, stabilize grid ...

Canberra is taking bold steps towards a sustainable future, with recent initiatives set to transform how we generate, store, and use energy. Here's what you, as a Canberra ...

Whether in metropolitan areas or remote sites, our expert teams handle every step--from container placement
