-----

It is critical to detect and suppress the fire before it spreads. When the Firetrace system automatically detects the fire, it immediately delivers the ...

This is where a compact fire suppression system combined with durable detection tube come into their own. These fire suppression systems can be sited within the nacelle and avoid the ...

However, these openings pose a significant challenge to fire suppression systems that rely on a fully sealed environment for optimal performance. ...

This is where a compact fire suppression system combined with durable detection tube come into their own. These fire suppression systems can ...

However, these openings pose a significant challenge to fire suppression systems that rely on a fully sealed environment for optimal performance. The inability to contain extinguishing agents ...

FirePro generators are an all-in-one container and are the equivalent of the agent storage tank, piping and nozzles of a pressurized gas system. They ...

Need a turnkey fire-suppression package for your generator installation? Contact Jubaili Bros - our engineers provide CFD discharge modelling, ...

These systems are assembled in our factory and ready to install, perfect for 20" sea cans with electrical gear, generators or energy storage containers, prefabricated electrical buildings, E ...

It is critical to detect and suppress the fire before it spreads. When the Firetrace system automatically detects the fire, it immediately delivers the fire suppression agent. By rapidly ...

Find out how Stat-X® fire suppression, an environmentally friendly solution for gas or diesel generators, machinery rooms, and other similar hazards.

In most cases they can extinguish pool fires of diesel fuel associated with storage and delivery systems. Meanwhile, they won't damage any of the generator equipment when ...

In most cases they can extinguish pool fires of diesel fuel associated with storage and delivery systems. Meanwhile, they won't ...

Need a turnkey fire-suppression package for your generator installation? Contact Jubaili Bros - our engineers provide CFD discharge modelling, UL/FM-rated equipment, and full civil defence ...

FirePro generators are an all-in-one container and are the equivalent of the agent storage tank, piping and nozzles of a pressurized gas system. They are installed directly within the ...

HI-FOG high pressure water mist is an ideal fire protection solution for power generation applications, as it can be activated immediately the moment a ...

HI-FOG high pressure water mist is an ideal fire protection solution for power generation applications, as it can be activated immediately the moment a fire is detected while being ...
