Barrick Mining has commissioned a solar-storage plant at its Kibali mine in Democratic Republic of Congo, bringing the supply of renewable energy to 85% at what the Toronto-listed firm calls

The potential for Congo to leapfrog traditional grid infrastructure entirely. Imagine village microgrids powered by solar-storage hybrids, coordinating through decentralized AI controllers.

Ituri Energy specializes in minigrid development and distributed renewable systems in the Democratic Republic of Congo, driving sustainable energy access for communities.

As Uganda's first diversified lithium battery production company, we provide world-class stationary energy storage and e-mobility solutions designed for performance, safety, and reliability for ...

Located in a mining area in southeastern DRC, CEECATL developed a high-safety, long-life, and intelligent grid-forming energy storage system tailored to the project's power ...

Global equipment manufacturer Caterpillar has supplied hybrid energy solutions technology including 7.5MW of battery storage to the microgrid powering a gold mine in the Democratic ...

With 12 years' Africa experience, we've deployed 850+ storage systems across the DRC. Our Kinshasa assembly plant employs 45 local technicians, ensuring rapid service response.

JNTech's hybrid solar-diesel microgrid systems are at the forefront of transforming the DRC's energy landscape. With continued investment and innovation, these systems ...

Energy storage systems (ESS) serve as a pivotal solution for enhancing the reliability of power supply,
