-----  
Does Costa Rica need a power adapter?

Devices with electric Plug A can fit in both Plug A and Plug B. Devices with Plug B can ONLY fit into Plug B electrical outlets. Note: Some places we stayed in Costa Rica only had Plug A power outlets. In that case, our Plug B devices would have required an adapter. Do you need a power adapter in Costa Rica?

Do I need a power outlet in Costa Rica?

The two most important things to note with the power outlets in Costa Rica is that they are Type A and B. If you come from a country that uses these plug types, you will not need an adapter.

Do I need a travel adapter or transformer when traveling to Costa Rica?

Yes! North Americans do not need a travel adapter or transformer when traveling to Costa Rica. Most device plugs will work with the outlet types in Costa Rica. Also, the voltage in Costa Rica is the same as in North America. Please note: an adapter will be needed if your device plug has a grounding pin and you are trying to use a Type A outlet.

Does Costa Rica have a 120 volt power outlet?

The outlets in Costa Rica work with 120 volts and 60Hz. This means you need to check if your appliances match these standards. When traveling, it's important to find the right adapters for Costa Rica. Universal travel power adapters are great, as they fit in over 150 countries, including Costa Rica.

Yes, you absolutely need a power adapter for Costa Rica. Most visitors will need to bring one because Costa Rica primarily uses Type A and Type B electrical outlets, which ...
