-----

Pre-configured solution for energy storage containers with high-efficiency cooling technology to help reduce your carbon footprint. The flexible modular concept permits simple adaptation to ...

Our custom-built container homes are available to rent on Airbnb, giving you the chance to explore the comfort, style, and sustainability of modular living. This is more than just a ...

At the MIT Energy Initiative's Annual Research Conference, speakers highlighted the need for collective action in a durable energy transition capable of withstanding obstacles.

Imagine having a plug-and-play Tesla Powerwall the size of a shipping container. That's essentially what prefabricated power storage cabins bring to the table - and they're ...

MIT researchers developed a new fabrication method that could enable them to stack multiple active components, like transistors and memory units, on top of an existing ...

Whether you're integrating renewables, stabilizing your operations, or seeking cleaner alternatives to diesel, Enerbond's ...

As MIT's first vice president for energy and climate, Evelyn Wang is working to broaden MIT's research portfolio, scale up existing innovations, seek new breakthroughs, and ...

In MIT course 15.366 (Climate and Energy Ventures) student teams select a technology and determine the best path for its commercialization in the energy sector.

Whether you're integrating renewables, stabilizing your operations, or seeking cleaner alternatives to diesel, Enerbond's containerized energy storage solutions are built to ...

Unlocking its secrets could thus enable advances in efficient energy production, electronics cooling, water desalination, medical diagnostics, and more. "Boiling is important for ...

In 2024, Texas rancher John installed two HighJoule 20-foot microgrid energy storage containers with a total capacity of 430kWh. After experiencing multiple grid outages, ...

Growing energy demand means the U.S. will almost certainly have to expand its electricity grid in coming years. What's the best way to do this? A new study by MIT ...

Our container homes are perfect for backyard ADUs -- whether you're building for family, rental income, or extra space. They're compact, ...

In 2024, Texas rancher John installed two HighJoule 20-foot microgrid energy storage containers with a total capacity of 430kWh. After ...

New research emphasizes the importance of well-validated models and forecasting tools in evaluating choices for investments in clean energy technologies and ...

Our modular container homes provide a versatile and affordable housing solution, offering unique designs and energy-efficient features. Whether ...
