around the world, depending on origin, destination, fuel prices, and ...

While container prices stabilized, the ripple effect continues. A standard 40HC container that cost \$3,500 pre-2023 now averages \$4,200 - and that's before adding solar components.

The durable container design is completely waterproof, protects you and your equipment from the elements and any potential security threats. RPS pre-wires all internal components.

A basic 20-foot solar-ready home usually starts around \$30,000 and can go up to \$50,000. If you want a 40-footer with insulation and essential features, you're looking at \$60,000 to \$100,000.
