How do I set up a base station?

Connect the base station to the mains power supply. Wait several minutes until the Charge status LED lights up. For quick-charging the headset: Briefly press the Set button at the rear of the base station. Connect the base station to the mains power supply. Reduce the distance between headset and base station.

What happens if the base station is unplugged?

If the Base Station is unplugged or the power goes out, the backup battery keeps you covered for up to 24 hours. With a monitoring plan, the Base Station will alert the SimpliSafe™ monitoring center who will request emergency dispatch if there's trouble.

How long does a base station battery last?

When a sensor on your system is triggered, it sends a signal to the Base Station, which sounds the loud, 100 dB siren and notifies you immediately. If the Base Station is unplugged or the power goes out, the backup battery keeps you covered for up to 24 hours.

What happens if a base station has a monitoring plan?

With a monitoring plan, the Base Station will alert the SimpliSafe™ monitoring center who will request emergency dispatch if there's trouble. \*When subscribed to a professional monitoring plan
