-----  
How many wind energy companies does a wind energy fund hold?

It holds two types of wind energy companies: Pure-play companies that get at least 50% of their revenue from wind-related activities (60% of the fund). Diversified companies that have some involvement in the wind industry (40% of the fund). This fund had about 45holdings in late 2025,led by the following five:

Should you invest in a green energy ETF?

An ETF reduces the risk of being right on the thesis but picking the wrong stock. Image source: Getty Images. Many ETFs focus on clean energy these days, given the amount of money flowing into the sector. Some take a broad approach by investing across the entire industry, while others focus on a single aspect of green energy investing.

Comprehensive guide to investing in Battery & Energy Storage ETFs, including performance analysis, top funds, and strategies for portfolio allocation.
