Who makes Fimer solar inverters?

FIMER is a well-established Italian-based inverter manufacturer that took over ABB's solar division in early 2020. The company is in the process of revamping many of the ABB-style inverters and is expanding its range of high-quality string solar inverters for residential, commercial and utility-scale applications.

Where is ginlong solar inverter made?

Location: Ningbo, Zhejiang, China
Ginlong Technologies (Ginlong Solis) provides cost-effective solar PV inverter solutions to commercial, residential, and utility-scale users. The company offers solar inverters under the "Solis" brand and maintains a global supply chain with world-class manufacturing and R&D facilities.

Who makes the best string inverter?

German manufacturer SMA Solar Technologies was widely regarded as the best string inverter manufacturer before the Fronius snap-in series took the top spot in 2016. However, the new Sunny Boy AV series regained some market share after SMA relocated all manufacturing back to Germany in 2019.

Who makes Sungrow solar inverters?

Founded in 1997 by a university professor, Sungrow is one of the largest suppliers of solar inverters globally and a leading Chinese inverter manufacturer. The residential SG range became very popular due to the competitive price, excellent reliability, and good reputation for service and quality.
