-----

Three months ago, a 72MWh BESS (Battery Energy Storage System) went operational near Lviv. Acting as both frequency regulator and emergency backup, this facility can power 15,000 ...

DTEK partnered with American energy firm Fluence Energy Inc. -- which provided 698 Gridstack batteries to the project -- to build and connect six new battery storage systems ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 ...

DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's largest battery energy storage ...

Expect significant upgrades in display, battery, performance, and camera technology, including AMOLED screens, large batteries, and high-resolution sensors. Pricing ...

Our 1 GW project combines gas, solar, and battery storage to secure Kyiv's grid, cut emissions, and support critical services. Explore investment in this high-impact initiative.

DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation spans six sites ...

From grid-scale storage to mobile power solutions, Kyiv lithium battery packs deliver adaptable energy storage across industries. Their focus on safety, scalability, and smart integration ...

DTEK partnered with American energy firm Fluence Energy Inc. -- which provided 698 Gridstack batteries to the project -- to build ...

Whether it's powering Spanish solar farms or Swedish snowmobiles, these energy storage solutions prove that innovation thrives where challenges abound. Now, if only they ...

DTEK, Ukraine's biggest private energy company, has begun final commissioning of the country's largest battery energy storage project, the company announced on July 10 at the ...
