Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in ...

This large-scale energy storage project plays a key role in stabilizing Switzerland's renewable energy supply. It smooths out the fluctuations of solar and wind power caused by ...

Since March 26, 2021, a large-scale energy storage system with a capacity of 1.25 megawatts and 1.3 megawatt-hours has been operational for Rhienergie AG in Graubünden, ...

Since March 26, 2021, a large-scale energy storage system with a capacity of 1.25 megawatts and 1.3 megawatt-hours has been ...

A new pumped-storage power station, one of the most powerful in Europe, came on stream in canton Valais in southern Switzerland in July 2022.

Well, they're now making waves in energy storage. The Federal Council just launched Europe's most ambitious battery storage tender - a 900 MW capacity push to solve their Alpine energy ...

ABB is supplying a complete package of electrical equipment for the new 1,000 MW Limmern pumped storage power plant in Switzerland. Kraftwerke Lint-Limmern (KLL), a member of the ...

Thanks to its storage capabilities, Switzerland plays a central role as an electricity supplier in the European networks. Hydropower is our most important, CO2-free energy source.

The pumped storage power station belonging to Forces Motrices Hongrin-Lötschman SA (FMHL) was built
