Two MPPT controllers serving one battery bank James Solar Expert Posts: 250 April 2015 #1 Hello folks, I realized I had my question here posted in an incorrect sub topic forum, so, I'll set ...

Is it possible? Will that damage the controller or the inverter? Note.. I have 2 (200A) gel batteries, a 60A MPPT controller, & a 2000W inverter.

Is there a rule for mixing different size panels to connect to an mppt charge controller? I have a set of 24V panels. (6) are 320 watt and (2) is 370watt.

I'm currently in the market for a new MPPT charge controller. Since one of my favorite hobbies is ham radio, I am searching for a controller that does not produce a bunch of radio frequency ...

In regards to the output of a Solar Panel Array versus the output of a MPPT charge controller connected to the array, I have a couple questions about using the adequate gauge wire.

Hello, how to charge 12v battery with 48v solar panel throw mppt solar charge controller? Is it possible? What will happen if I do that?

In bulk mode the controller is in MPPT mode. In absorb and float it is not in MPPT mode. If it is not in MPPT mode, does that mean it is in PWM mode? It is still power point tracking, it just isn't ...

I have installed two 5kva MPPT inverters, each with separate battery bank and separate front end load of appliances. The only thing shared between both is PV input which is a 96 volt 6000 ...

Morning all, I have an MPPT charge controller rated for 40A, and can take an input of 12 or 24v, and output
