Does Ottawa have a battery energy storage plan?

In 2025, the City of Ottawa established official plan and zoning provisions for battery energy storage uses in accordance with new Official Plan policy. BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge energy in periods of high demand.

Is Ottawa looking at regulatory changes around battery energy storage facilities?

Ottawa is looking at regulatory changes around these types of facilities. (Ross D. Franklin/The Associated Press) UPDATED: City councillors unanimously approved the new rules for battery energy storage facilities at their meeting on Feb. 12, 2025.

What is a lithium-ion battery energy storage system?

Although energy storage comes in different shapes and sizes, the lithium-ion Battery Energy Storage System ("BESS") is the fastest emerging technology in North America and is planned to be deployed in the City of Ottawa with the Ottawa BESS 2 Project.

Does Ottawa fire services provide water storage?

Water storage may be available on-site, and Ottawa Fire Services is Superior Tanker Shuttle certified to maintain continuous water delivery as needed. Will Ottawa Fire Services inspect and certify that BESS projects are safe before they are operational? OFS plays a role in ensuring the safety of BESS projects.

Solar panels and battery storage systems are essential for a sustainable home. By harnessing the power of the sun, you can generate your own clean energy from your rooftop. ...

Although energy storage comes in different shapes and sizes, the lithium-ion Battery Energy Storage System ("BESS") is the fastest emerging technology in North America and is planned ...

Water storage may be available on-site, and Ottawa Fire Services is Superior Tanker Shuttle certified to maintain continuous water delivery as needed. Will Ottawa Fire ...

The South March battery energy storage system (BESS) in Ottawa's West Carleton community will store unused energy for future use, gathering electricity during off ...

Workers check battery storage pods at a lithium-ion battery storage energy facility in Arizona last year. Ottawa is looking at regulatory changes around these types of facilities.

BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, which can then discharge energy in periods of high ...

Water storage may be available on-site, and Ottawa Fire Services is Superior Tanker Shuttle certified to maintain continuous water ...

BESS is an emerging technology using batteries and associated equipment to store excess energy from the electrical grid, ...

Explore battery storage solutions with Ottawa Solar Power. Achieve energy independence and reliable backup for your home or business.

Two battery energy storage systems (BESS) one located at Area X.O and another at Hydro Ottawa's Dibblee Road facility, will operate together to test how AI can balance ...

Ottawa is leading the way in sustainable energy by implementing new land-use policies for Battery Energy Storage Systems (BESS), ensuring both innovation and safety in ...

"The collaboration between BluWave-ai and Evolugen by Brookfield is a powerful example of how Canadian innovation can accelerate the creation of a smarter, greener energy ...
