---

It's fuelled by water. Long overlooked as an energy powerhouse, the country is now making waves with pumped-storage ...

Unlike standalone renewable energy ventures, this project retrofits an existing oil-fired power plant. The BESS installation will help stabilize the ...

The power generation arm of the Philippines' largest private electric distribution provider, Manila Electric Company (Meralco), is developing its second large-scale battery ...

Co-located with SNAP's hydroelectric plant, the storage system uses liquid-cooled lithium-ion batteries and is connected to the grid via a 230- kV power transformer.

The power generation arm of the Philippines' largest private electric distribution provider, Manila Electric Company (Meralco), is ...

Mindoro Medical Center-Calapan, Inc. (MindoroMed) is set to become the first hospital in the Philippines to operate using both solar power and a Battery Energy Storage ...

It's fuelled by water. Long overlooked as an energy powerhouse, the country is now making waves with pumped-storage hydroelectric power (PSHP), drawing in billions from ...

President Ferdinand R. Marcos Jr. on Thursday led the groundbreaking of the "Meralco Terra Solar Project," considered as the largest integrated solar and battery storage ...

Co-located with SNAP's hydroelectric plant, the storage system uses liquid-cooled lithium-ion batteries and is

connected to the ...

DNV, a global provider of classification, technical assurance, and advisory services, has successfully supported SN Aboitiz Power Group in the development of a ...

This facility, spanning Nueva Ecija and Bulacan, will be the world's largest single-site solar and BESS project. The first phase of the project will deliver 2,500 MW of capacity, ...

That's exactly where Philippines pumped storage power stations come into play. As the country races toward its 35% renewable energy target by 2030, these facilities are ...

As a trailblazer in battery energy storage technology in the Philippines, San Miguel Global Power is able to significantly support the use of renewable ...

Unlike standalone renewable energy ventures, this project retrofits an existing oil-fired power plant. The BESS installation will help stabilize the grid by storing surplus electricity during low ...

As a trailblazer in battery energy storage technology in the Philippines, San Miguel Global Power is able to significantly support the use of renewable energy sources in the country and help ...

President Ferdinand R. Marcos Jr. on Thursday led the groundbreaking of the "Meralco Terra Solar Project," considered as the ...
