How much does a solar inverter cost?

Most solar panel contractors charge around \$50 to \$100 per hour. You may save \$1,000 to \$2,500 up-front by choosing a string inverter over a microinverter or hybrid inverter. A solar inverter costs \$2,000 on average, with prices often ranging from \$1,000 to \$3,000. That said, some homeowners spend as little as \$800 or as much as \$5,000.

What is the best solar inverter?

Design flexibility and unrivaled power capability in one sleek package. The transformerless, single-phase Fronius Primo is the ideal solar inverter for residential applications with a 208/240 grid connection. The SnapINverter has many standard features, making it convenient and "one-stop shop" for a high quality inverter.

How much power does a Fronius inverter have?

Power capabilities of Fronius inverters range from 1.5 to 24.0 kW. Fronius has three lines of inverters with varying power ranges of each inverter; Primo GEN24, Primo GEN24 PLus, Primo, Symo, and Symo Advanced. All of Fronius Inverters are Rapid Shutdown compliant. GEN24 models with integrated basic backup power function.
