Riga is the financial, creative, and cultural centre of Latvia. It is the capital and the largest city in Latvia, it is also the second largest city in the Baltic States after the Lithuanian capital Vilnius.

Riga is the capital of Latvia. It occupies both banks of the Daugava (Western Dvina) River, 9 miles (15 km) above its mouth on the Gulf of Riga. It is an important Baltic Sea port.

The megacity has launched one of China's first recycling schemes as the country looks for ways to tackle its waste.

Riga (pop. 650 000) is the largest city in the Baltic States. Together with suburbs, it contains almost half of Latvia's inhabitants. Nearly all major Latvian businesses are headquartered in ...

Textile recycling can help reduce landfill space, pollution from dyes and chemicals, and improve working conditions for garment workers.

With global recycling rates still very low, behaviour change is key to the circular economy. A non-profit has found success with projects in Indonesia and Argentina.

Find all the necessary information about finding a job, relocating, and living in Riga. Discover your career options and why it's worth building a life in the vibrant capital of Latvia.

Every year, humans produce over 300 million tons of plastic waste, and only a small fraction of this is recycled. The rest ends up in landfills and oceans.

These 25 recycling facts and statistics show the state of plastic, paper, aluminum, glass, electronic and food recycling, and the progress the world has to make.

A group of multinationals, backed by Egypt's government, have created a plastic recovery scheme which rewards informal collectors through digital credits.

The unexpected success of animated movie Flow (2024) saw Latvia catapulted into the spotlight last year, putting this hidden gem onto many traveller's radars for the first ...

Recycling plastic is not enough to beat the global waste crisis - we need more new ways to make food packaging, including using more compostable materials.

A circular economy that reduces, reuses or recycles waste can cut the world's growing municipal waste volumes, finds a new United Nations report. Here's how.

"Wishcycling" is contaminating the recycling system. Our well-intentioned acts of recycling may actually be slowing the move to a circular economy. More than half of people in ...

Riga, the capital of Latvia, is not only the crown jewel of Latvia, but also of the Baltics. Riga's Old Town is a UNESCO World Heritage Site. Riga has more than 600 000 inhabitants, making it ...

Save this place to a Trip, where you can track your faves and get personalized picks as you plan. The Latvian capital, the largest city in the Baltics, is a fascinating mixture of proud Latvian ...
