Welcome to São Tomé and Príncipe, the African archipelago turning heads with its groundbreaking energy storage power plant. Nestled in the Gulf of Guinea, this two-island ...

Renewable energy leader Drax is to invest & #163;80 million in a major refurbishment of its iconic ""Hollow Mountain"" Cruachan pumped storage hydro power station in Scotland, increasing its ...

But here's the real kicker - we're piloting seawater-based thermal storage that could slash capital costs by 35%. Early prototypes use abandoned cocoa fermentation tanks as pressurized vessels.

This article targets energy policymakers, renewable energy investors, and tech-savvy environmentalists curious about how energy storage can transform off-grid communities.

The island nation's groundbreaking energy storage project - combining solar power with cutting-edge battery systems - could become Africa's blueprint for sustainable development.

The São Tomé and Príncipe Energy Storage Garden, launched in 2024, has become the talk of the renewable energy world. But why should a country smaller than New York City grab global ...

This is the reality São Tomé and Príncipe aims to change through its groundbreaking Substation Energy Storage Project. As global attention shifts toward sustainable energy, this initiative ...

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant ...

French energy giant TotalEnergies has started construction on a solar-plus-storage project in South Africa,
