-----

An existing float line at the Rossford, Ohio factory of Pilkington North America, Inc., a member of NSG Group, has been converted to ...

Surge in demand for residential applications and supportive government policies for using photovoltaic technology drive the growth of the global solar photovoltaic glass market.

With PV module capacity ramping up, glass suppliers have been investing in new solar glass production capacity. As in India and China, new facilities are popping up in North ...

The solar PV glass market size crossed USD 53.5 billion in 2024 and is estimated to grow at a CAGR of 7.9% from 2025 to 2034, driven by the significant increase in solar installations due ...

Government rules that are favorable to the development of solar PV plants is one of the factors driving the growth of the solar PV glass market. Additionally, the market for solar ...

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in circularity, low-carbon furnaces, and specialty ...

In recent years, China's rapid expansion of solar energy has driven huge growth in the solar glass sector, resulting in higher capacity. But oversupply emerged last year, leading ...

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in ...

Besides influencing First Solar and its growing glass supply chain, policies such as the US Inflation Reduction Act (IRA), are also spurring crystalline silicon manufacturing ...

An existing float line at the Rossford, Ohio factory of Pilkington North America, Inc., a member of NSG Group, has been converted to begin producing TCO glass from March ...

The Crawford County glass plant is poised for a significant transformation as it pivots towards solar cell production, marking a new chapter in its storied history.

With PV module capacity ramping up, glass suppliers have been investing in new solar glass production capacity. As in India and ...

Rapid urbanization and the global focus on sustainable construction practices have fueled the demand for solar PV glass in the building sector. As cities strive for energy ...
