-----  
Does Timor-Leste have a rooftop PV market?

Timor-Leste's rooftop PV market is nascent; few businesses have invested in PV rooftops and household use remains low. The supply aspect has also not caught up with the global boom--few firms offer rooftop PV solar in Timor-Leste.

Is Timor-Leste a good place to invest in rooftop solar?

Timor-Leste's rooftop PV market is just emerging. Barriers include a lack of access to capital, low awareness of solar solutions, low technical capacity to set up solar solutions and low levels of building ownership.

Does Timor-Leste have a strategic advantage over its neighbours?

The findings paint a positive picture: Timor-Leste holds a strategic advantage over its neighbours in transitioning to solar rooftops, with potential electricity cost reductions and a recovery period of 2.5 years, lower than regional averages. Timor-Leste's rooftop PV market is just emerging.

Does East Timor need a national energy sector?

Since attaining full independence from Indonesia in 2002, East Timor has struggled to rebuild its war-damaged infrastructure, of which that supporting its national energy sector is key.

Official Timor-Leste (Timor Leste) travel information, maps, itineraries, activities & accommodation to help you plan your next holiday. Start planning today.

Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

It was incorporated into Indonesia in July 1976 as the province of Timor Timur (East Timor). An unsuccessful campaign of pacification followed over the next two decades, during which an ...
