-----

On December 16 local time, the Kairouan 100 MW photovoltaic power station project in Tunisia, the country's first large-scale ground-mounted PV power station and the largest ...

The Government of Tunisia is taking steps to diversify its energy generation mix by bringing on hydropower and solar energy.

Tunisia has already awarded contracts for four utility-scale #PV projects with a total generation capacity of 1.7GW. The solar farms ...

On 16 December 2025, in the central Tunisian governorate of Kairouan, a 120-megawatt solar power plant was officially commissioned, marking the country's largest ...

Solar project contracts were awarded earlier this week following the signing of agreements between Tunisia and partners from Norway and Japan for the construction of the ...

This literature review describes the basic concepts of solar energy and the production of electricity using the photovoltaic effect in the case of Tunisia. The main elements of the photovoltaic ...

Average global horizontal irradiation is between 4.2 kWh per m<sup>2</sup>; per day in the north-west of Tunisia and 5.8 kWh per m<sup>2</sup>; pd in the extreme south. ...

The ELMED interconnection project, which will link Tunisia to Italy by 2028, will play a key role in stabilizing energy supply, while supporting the energy transition in Tunisia and Europe.

Tunisia has cleared more than 2.3 GW of new renewable energy projects for tender in 2026, as the government accelerates efforts to cut its energy deficit and meet clean power ...

Average global horizontal irradiation is between 4.2 kWh per m<sup>2</sup> per day in the north-west of Tunisia and 5.8 kWh per m<sup>2</sup> per day in the extreme south. Given these favourable conditions, the ...

Anglo-Tunisian group SoleCrypt announced plans for a 60 MW PV plant in Tozeur, part of a broader initiative to connect eventually to the Medusa submarine cable, enhancing ...

Tunisia has already awarded contracts for four utility-scale #PV projects with a total generation capacity of 1.7GW. The solar farms are expected to come online during either ...
