Enel completes GulfStar, its largest U.S. power plant, a 556 MW solar and 355 MW battery storage project in Texas delivering clean energy and local impact.

A new report from the US Department of Energy's (DoE) Lawrence Berkeley National Laboratory shows a major expansion of solar-plus-storage facilities in the US power ...

An "unbelievable appetite for clean energy" is pushing the developer of Gemini, the US's largest co-located solar-plus-storage power plant, to pursue opportunities of a similar scale.

With a planned photovoltaic capacity of 690 megawatts (MW) and battery storage of 380 MW, it is expected to be the largest solar project in the United States when fully ...

The City of Fresno's Department of Public Utilities (DPU) has achieved a significant milestone by completing the largest commercial ...

ForeFront Power is a leading developer of commercial and industrial-scale (C& I) solar energy and battery storage projects in the ...

We're developing America's solar energy and storage infrastructure, helping to increase domestic energy production to ensure the nation's energy security. In 2024, &#216;rsted was the second ...

Deployment: Projects that deploy residential, commercial, and utility scale energy storage systems for a variety of clean energy and clean transportation end uses.

An "unbelievable appetite for clean energy" is pushing the developer of Gemini, the US's largest co-located
