What is an uninterruptible power supply (UPS)?

Uninterruptible Power Supplies (UPS) safeguard your electronics against power outages,surges,and fluctuations. Whether you are setting up a UPS for a home,a UPS for an office,or a UPS for a data center,this beginner's UPS setup guide will walk you through every aspect of the UPS installation process.

Can I replace a fuse on my uninterruptible power supply (UPS)?

Do not replace fuse. Warning -- Exposure to some chemicals may degrade the sealing properties of materials used in the sealed relay device. This manual contains important safety instructions that should be followed during the installation of the Uninterruptible Power Supply (UPS).

How do I enable/disable the ups output?

Selected 'DISABLE' for Manual Enable/Disable the UPS Output. Selected 'ENABLE' for Remote Enable/Disable the UPS Output. The Power Buttonon the front of the UPS is used to manually enable or disable the output of the 1609-D UPS. To enable the 1609-D UPS,press and hold the power button until one beep is heard.
